

### Key Differentiators

Brick and Mortar, Plasterboard, etc

- Only R12 rated non slip system as noted by CSIRC suitable for food and hospital grade applications
- Fire resistance-Retardant and flame resistance and 3 zeros
- No discoloration, and contains all our features

**Guarantees: 10-25 years depending on locations and applications**

### Metal

- Fire resistance-Retardant and flame resistance and 4 zeros
- Stops rust in its tracks and can be painted on non-flaky rust
- Great performance on all metals including galvanised steel, ST ST

**Guarantees: 10-25 years. Depends on location and applications**

### Timber

- Fire resistance-Retardant and flame resistance and 4 zeros
- Treatment that protects and extends life against rot, borates and termite
- No discoloration and contains all key features of Ultralast
- Have non slip capacity

**Guarantees: 10 -30 years depending on applications**
